TECHNICAL SKILLS

Programming: Python, JavaScript, C++, HTML5, CSS, MySQL, Core Java

Web Development: ReactJS, Tailwind CSS

Data & AI: LangChain, FAISS, PowerBI

Core CS: DSA, OOP, OS, Computer Networks

PROJECTS

Sustainable Shopping Assistant – Eco Mitra

- Users upload a product image to receive a sustainability score
- Built the image upload + preprocessing + API request flow
- Added UI screens and a simple rewards/gamified experience
- **Tech stack :** React.js, Tailwind CSS, LangChain, Salesforce AI, REST APIs

PDF Chatbot (RAG-Based)

- Users upload a PDF, and the chatbot answers questions from it
- Implemented vector embedding + retrieval using FAISS
- Achieved accurate context-based responses for long documents
- **Tech stack :** Python, Streamlit, LangChain, FAISS, Mistral 7B

Financial AI Advisor – Manipal Hackathon

[Click Here ↗](#)

- Provides basic financial guidance based on user profile data
- Led the frontend development and UI workflow
- Completed MVP within 24 hours for a national-level hackathon
- **Tech stack :** MongoDB, Express.js, React.js, Node.js

BusIQ – Real-Time Crowd Management System

- Built a web app that shows live bus occupancy and seat availability to reduce overcrowding.
- Developed React dashboard + REST APIs for real-time data updates and seamless UI.
- Used MongoDB + Node.js to store and process passenger and route data efficiently.
- **Tech stack :** React.js, Node.js, Express.js, MongoDB

VeriAI – AI Response Safety Chrome Extension

- Building a Chrome extension that analyzes AI chatbot responses to detect bias, manipulation, or unsafe language
- Displays a color-coded bias heatmap and gives a confidence safety score for each message
- Allows users to report unsafe responses to improve detection accuracy over time
- **Tech stack :** JavaScript, Chrome Extension APIs, NLP Models (HuggingFace), HTML/CSS

EN-ABLE – Multi-Ability Accessibility Platform - Hackathon Project

- Built a unified accessibility dashboard supporting blind, deaf, mute, and neurodivergent users.
- Blind: Image-to-speech & text-to-speech assistance
- Deaf: Live audio → visual alerts & video-to-caption Chrome extension
- Mute: AI-based sign-language → text translator
- Neurodivergent: Chrome extension simplifying selected text for Autism, ADHD & Dyslexia
- **Tech stack :** React.js, Node.js, JavaScript, Chrome Extension APIs, Tailwind CSS

EXPERIENCE

Software Developer Intern : *Tap Academy*

Jan'26 - Present

- Develop and maintain full-stack web applications using Java, HTML, CSS, and JavaScript, following industry-standard coding practices.
- Apply Object-Oriented Programming (OOP) principles to design and implement efficient backend functionality.
- Perform code debugging, testing, and UI improvements to enhance application performance and user experience.

Frontend Developer Intern : *Innovirtual Software Solutions*

Duration - 3 Month

- Building basic UI pages using HTML, CSS, JavaScript, and React.js
- Working on layout, styling, and making pages responsive
- Using GitHub to update and share code with the team

Web Development Intern : *Codsoft*

Duration - 1 Month

- Built responsive UI pages using React.js, Tailwind CSS, and integrated REST APIs for real-time data.
- Created reusable components and collaborated using Git/GitHub for faster and efficient development.

EDUCATION

B.E. in Information Science - 8.26 CGPA [Till 7 sem]

Dec 2022 - May 2026

Brindavan College of Engineering

Class 12 - 82%

May 2022

Deeksha, Yelahanka [State Board]

Class 10 - 80.2%

May 2020

Army Public School , PRTC [CBSE]

CERTIFICATIONS

- Artificial Intelligence Fundamentals – **IBM**
- Customer Engagement: Communication & Personality Dynamics – **IBM SkillsBuild**
- Customer Engagement: Problem Solving and Process Controls – **IBM SkillsBuild**
